

# Download International Human Rights Law

International human rights law (IHRL) is the body of international law designed to promote human rights on social, regional, and domestic levels. As a form of international law, international human rights law are primarily made up of treaties , agreements between sovereign states intended to have binding legal effect between the parties that have agreed to them; and customary international law .While international treaties and customary law form the backbone of international human rights law other instruments, such as declarations, guidelines and principles adopted at the international level contribute to its understanding, implementation and development. Respect for human rights requires the establishment of the rule of law at the national and international levels.The Universal Declaration of Human Rights is generally agreed to be the foundation of international human rights law. Adopted in 1948, the UDHR has inspired a rich body of legally binding ...International human rights law prescribes obligations which states are bound to respect. Through ratification of international human rights treaties, governments undertake to put into place domestic measures and legislation compatible with their treaty obligations. By becoming parties to international treaties, states assume obligations and duties under international law to respect, protect and fulfill human rights., International Human Rights Law.
