Collects Justice League/Aquaman: Drowned Earth #1, Justice League #10-12, Aquaman #40-41, Titans #28 and Aquaman/Justice League: Drowned Earth #1. Snyder's Justice League epic continues, into a nice crossover with Aquaman during Drowned Earth. Apparently there is at least one mini tie-in issue with Titans that isn't in this book, but I don't believe it's necessary to enjoy this. Snyder continues his epic run, and art by Francis Manapul is beautiful as always. Definitely a worthy read for fans of the DC Universe. If you're a fan of Scott Snyder's writing like in the Court of Owls, End Game, and White Knight then this is a great graphic novel that shows off his skills. I rated Aquaman & Justice League: Drowned Earth 4 out of 5 stars., Justice Leagueaquaman Drowned Earth Jla Justice League Of America.
