

Download Principles Of Financial Accounting

Financial Accounting is often called the language of business; it is the language that managers use to communicate the firm's financial and economic information to external parties such as shareholders and creditors. The phrase "generally accepted accounting principles" (or "GAAP") consists of three important sets of rules: (1) the basic accounting principles and guidelines, (2) the detailed rules and standards issued by FASB and its predecessor the Accounting Principles Board (APB), and (3) the generally accepted industry practices. Accounting principles are the rules and guidelines that companies must follow when reporting financial data. The common set of U.S. accounting principles is the generally accepted accounting ...
