

# Download Shibumi A Novel

Shibumi is a novel published in 1979, written in English by Trevanian, a pseudonym of Rodney William Whitaker. Shibumi is set in the 1970s and details the struggle between the "Mother Company", a conspiracy of energy companies that secretly controls much of the western world, and a highly skilled assassin, Nicholai Hel. More news about Trevanian's epic novel Street of the Four Winds can be found here. SOTFW: When it was first suggested to me that we should allow Trevanian's characters from Shibumi to be used in a new novel written by someone else, I was not enthusiastic. Shibui (??) (adjective), shibumi (??) (noun), or shibusa (??) (noun) are Japanese words which refer to a particular aesthetic of simple, subtle, and unobtrusive beauty. Like other Japanese aesthetics terms, such as iki and wabi-sabi, shibui can apply to a wide variety of subjects, not just art or fashion.
