

Download The Addictive Personality Understanding The Addictive Process And Compulsive Behavior

Behavioral addiction is a form of addiction that involves a compulsion to engage in a rewarding non-substance-related behavior – sometimes called a natural reward – despite any negative consequences to the person's physical, mental, social or financial well-being. A gene transcription factor known as FosB has been identified as a ...The Science of Addiction. There are plenty of myths and misconceptions about addiction, but in reality, the processes that give rise to addictive behavior resist a simplistic explanation. Addiction is a brain disorder characterized by compulsive engagement in rewarding stimuli despite adverse consequences. Despite the involvement of a number of psychosocial factors, a biological process – one which is induced by repeated exposure to an addictive stimulus – is the core pathology that drives the development and maintenance of ...Addictive drugs provide a shortcut to the brain's reward system by flooding the nucleus accumbens with dopamine. The hippocampus lays down memories of this rapid sense of satisfaction, and the amygdala creates a conditioned response to certain stimuli., The Addictive Personality Understanding The Addictive Process And Compulsive Behavior.
