

Download The Book History Reader

As a physical object, a book is a stack of usually rectangular pages (made of papyrus, parchment, vellum, or paper) oriented with one edge tied, sewn, or otherwise fixed together and then bound to the flexible spine of a protective cover of heavier, relatively inflexible material. The technical term for this physical arrangement is codex (in ...Michael S. Hart (1971) Despite the extensive earlier history, several publications report Michael S. Hart as the inventor of the e-book. In 1971, the operators of the Xerox Sigma V mainframe at the University of Illinois gave Hart extensive computer-time.
