

Download Thinking About Faith In God How Belief Makes Science Possible Thinking About Series

We all suffer from systematic thinking errors 1, 2 which fall into three main types: (1) internal cognitive errors; (2) errors of emotion 3, perception and memory; and (3) social errors that result from the way we communicate ideas and the effects of traditions and dogmas. Quotes. What information consumes is rather obvious: it consumes the attention of its recipients. Hence a wealth of information creates a poverty of attention, and a need to allocate that attention efficiently among the overabundance of information sources that might consume it. Introduction and Summary "Somewhere along the line of development we discover what we really are, and then we make our real decision for which we are responsible. Various aspects of the relationship between religion and science have been cited by modern historians of science and religion, philosophers, theologians, scientists, and others from various geographical regions and cultures., Thinking About Faith In God How Belief Makes Science Possible Thinking About Series.
