These students in Matamoros, Mexico, didn't have reliable Internet access, steady electricity, or much hope—until a radical new teaching method unlocked their potential. Creativity is a phenomenon whereby something new and somehow valuable is formed. The created item may be intangible (such as an idea, a scientific theory, a musical composition, or a joke) or a physical object (such as an invention, a literary work, or a painting). This article is an attempt at formulating a prescription for genius and creativity. In equal part, it was written to inspire the bright ones as it is supposed to help those who consider themselves less intellectually fortunate. Latest news, expert advice and information on money.
